SEA ISLAND COTTON.

Savannah Market Firm With a Hardening Tendency.

SAVANNAH, Ga., Oct. 9.—The Sea Island cotton market has been firm the past week with a good demand at hardening prices; the inquiry was for all grades as being received. Nothing choice is yet coming in on the present crop. Sales were liberal, and the market closed firm.

Crop accounts are about the same. The census report showed 13,826 bales ginned up to Sept. 25, against 11,457 last year. This increase is attributed to the rapid opening of the crop in Florida, and is not indicative of a correspondingly large yield. The Georgia crop is turning out well on the acreage. The South Carolina crop is said to be materially under last year.

There are again complaints of the Savannah trade being handicapped by under-selling of the interior.

Sales for the week, 2,539 bales.

BRIDGE WORKMEN SHOT FROM AMBUSH

Lawless Act in Bradford County of Which Oscar Crews and Chas. Thomas Are Charged.

Last Friday night while some negroes working for the Roanoke Bridge Co. on the erection of the new steel bridge across New river were cooking supper at their camp at the south end of Long Bridge, a voice suddenly called out of the darkness, "Are you the niggers that work on the grade?" One of them, who was in the act of frying some bacon, with the frying pan in his hand, turned around to see who was talking and received a load of shot in the left side of his face, and then another in his side. He hurriedly dropped the frying pan to run, and got a load of shot about eight inches below the small of his back. The much peppered darkey ran into the swamp, followed by a mate who, in the act of baking a hoe cake, had been peppered almost as bad, and several others who escaped without injury. Nine shots had been fired in quick succession.

Mr. McCain, the superintendent, and Mr. Johnson, his assistant, ran to the scene of the shooting as quickly as they could, but could only get a glimpse of the marauders. Mr. McCain told Mr. Johnson to take a buggy and go to Lake Butler for a deputy sheriff. While Johnson was gone McCain heard a rumbling noise and then a splash from the direction of the middle of the bridge, and when Johnson came back he told him to drive with as little noise as possible and he "might see something." Johnson obeyed the directions and after crossing over to the north side of the river saw two men dodge from the road into a thick growth of trees. He drove into the shadow of a large tree and stopped, and after a few moments saw the two men cross the road. He then drove on to Lake Butler and told Deputy J. B. Dowling what had happened.

It seems that Oscar Crews and Chas. Thomas, young men of the neighborhood, who had worked on the bridge, but had been discharged, had openly uttered threats against the company. Deputy Dowling suspected them of having done the shooting and drove to Jesse Cason's, where the young men boarded, having in the meantime been joined by Mr. McCain. One of the shooters seen by the latter had on a long coat, and such a coat was hanging up in the room in Cason's home where Crews and Thomas were found. The pockets were searched and revealed several loaded shells of the same caliber and size of shot, No. 7, as some empty shells that had been picked up at the scene of the shooting, as well as some bolts and nuts that had been taken from the new bridge. On these suspicious circumstances Deputy Dowling arrested Crews and Thomas and Sheriff Langford, who arrived later, brought them to the county jail in Starke.

Before Mr. Dowling left Lake Butler

eventeen Are Killed And Ten Badly Hurt

OPEKA, Kans., Oct. 9.—Seventeen ons were killed and ten severely ed in a collision between a ht train and a construction train the Atchison, Topeka and Santa railroad near here yesterday. The are eleven Mexicans, four sec- foremen and two brakemen. e injured, all Mexicans, are at Atchison, Topeka and Santa Fe pital. It is believed some of them fatally injured.

e work train was backing into eka with fifty Mexicans riding on flat cars. As the train was round- a curve the north bound freight hed into it.

ngineer Edward Ash and Fireman Joseph Corey on the freight jumped as soon as the air brakes could be set. The Mexicans were not aware of the danger until the enginemen and trainmen jumped and then it was too late for many of them.

The engine on the freight ran over four of the flat cars comprising the work train and almost a score of men were pinned down, and it was several hours before they were extricated.

It is said the wreck was caused by the crew of the work train disregarding orders.

Of the w of seven which sailed from Mo- last night five were in the hospi- with slight chances of recovery, e another was washed overboard the recent hurricane, and a second died of starvation shortly before aid came to the helpless vessel, washed hundreds of miles out of her course.

The Kate Feore sailed from Mobile about September 12 with a cargo of lumber for Cuban ports. Encountering the hurricane the boat was stripped to the decks and waterlogged, sank to the deck. What stores that were left were in the water-filled cabin, and the men took turns diving through the watchway for canned meats, upon which they barely subsisted until succor came.

John Skelton Williams In Control of Seaboard

NEW YORK, Oct. 9.—The reorganization committee of the Seaboard Air Line railroad, at a meeting yesterday with the board of directors, increased the directorate to nineteen members. Three directors, Thomas F. Ryan of New York, Major J. H. Doley of Richmond, Va., and William A. Garrett of Norfolk, Va., were not re-elected.

The following were elected to fill their places and the three positions created:

L. F. Loree, John B. Ramsey, John Skelton Williams, J. Willaim Middendorf, Franklin C. Brown and Hennen Jennings.

As at present constituted the board has apparently a preponderance of members friendly to John Skelton Williams, between whom and Thomas F. Ryan there was a contest for control some years ago.

The annual meeting of the company will be held November 11 and until then, it is understood, nothing will be done toward electing a president to succeed W. A. Garrett, who resigned that office, and also as general manager, when he retired from the directorate last summer.

Mr. Williams was former president of the railway and Mr. Middendorf was former vice-president.

Messrs. Williams, Ramsey and Jennings were members of the committee which formulated the plan for the adjustment of the company's affairs.

Incendiary Fire Causes Four Deaths at Nashville

NASHVILLE, Tenn., Oct. 9.—In connection with a fire, in which four persons were burned to death, two negroes were arrested on suspicion. The fire was in a brick dwelling house.

The dead:

Mrs. Dora Fishman, aged 44.

Miss Rosie Fishman, aged 14.

Miss Rachael Markeson, aged 16 years.

Mrs. Rosa A. Fishman, aged about 50 years.

Moses Fishman was seriously burned.

The fire broke out while occupants of the house were asleep. So great a headway had it gained when discovered, and so intense was the excitement caused by the horrible screams of women, that no organized attempt at rescue was made until after four fire companies arrived on the scene.

In spite of heroic efforts to enter their apartment in the face of flames bursting from the windows every member of the Fishman family but one perished. Miss Rachael Markeson, the other victim, lived in the same apartment.

The negroes arrested were Jim Butler and George Harrison, who had been hanging about the building. They were known to have had trouble with J. A. Thuss, a grocer, who occupied the ground floor.

ASSESSMENT WILL SHOW SMALL INCREASE

SOME $75,000 MORE ADDED TO TAX ROLL THIS YEAR.

Greatest Increase Has Been on Real Estate and Will Run to Nearly $50,000.

Alachua county now has an assessed valuation of $6,135,178, which makes it rank about fourth in the list of counties of the State for valuation.

The personal property has decreased considerably since the last assessment, but this is accounted for by the fact that a very large percentage of the phosphate plants have ceased operations, while turpentine and lumber are both inactive to what they were last year, but with all of these conditions, the increase over last year will run in the neighborhood of $75,000, the greatest part of it being in real estate values.

Tax Assessor Colson, who has just completed his books, and who has made a total of the entire work, gives the valuation as follows:

Real estate	$2,943.340
Railroad property	1,755,178
Telegraph property	23,355
Turpentine privileges	2,460
Personal property	1,410,840
Total	$6,135,178

While this year's books will show the increase of some $75,000, it is small with what Tax Assessor Colson states that next year should show. New enterprises are developing and business in all lines is resuming operations, and as a result these will all be included in the assessment another year. There are also a number of industries that were started too late the past year to be assessed and this will assist in swelling the amount for another year.

The books will be ready to turn over to the commissioners at their adjourned meeting next Monday.

BRIDGE WORKMEN SHOT FROM AMBUSH

(Continued from Page One.)

he had wired ex-Sheriff Purvis, of Lake City, who owns some clever hounds, to come to the scene. He arrived Saturday morning and, although the arrest had been made, the hounds were put to work in order to verify the suspicions. They were started from where Mr. Johnson had seen the men cross the road the night before, and the trail took them to Cason's house.

Saturday morning it was discovered that the shooting was not all the damage done. A car used for transportation of material had been dumped into the river and a drill press was missing.

The preliminary examination was to have been held by County Judge Thos. J. Dekle Tuesday, but the young men waived arraignment and were put under a bond of $500 each to appear before the fall term of the circuit court, which convenes in Starke Monday, October 25th. They gave the bond readily and were released from custody.

The troubles of the bridge company were not ended with the episode just described, for at noon Sunday their store house containing material and tools was destroyed by an incendiary fire. The damage is variously estimated from $1,000 up. Miles Crews, brother of Oscar Crews, was suspected of having set the fire and was arrested, but no evidence against him could be found and he was released.

All the young men involved in the unfortunate affair are well known in their section. The Crews boys are sons of former State Senator Crews and Thomas is a son of the late Newton J. Thomas.—Starke Telegraph, Oct. 8th.

FUNERAL OF MR. PARKER.

Large Number of Friends Followed Remains to Cemetery.

The funeral services of the late J. H. Parker were held from the family residence Saturday afternoon at 3 o'clock and concluded at Evergreen Cemetery, where the body was laid to rest.

Mr. Parker, it will be remembered, died from the effects of a pistol shot wound inflicted by one Arthur Ritch, and was being taken to Jacksonville for medical treatment at the time he expired, which was just about twenty minutes before the arrival of the train in Jacksonville.

He was a young man prominently connected in Gainesville, and his death in this manner is deeply deplored by his numerous friends.

The Gainesville Hardware Company, with whom the deceased was connected as salesman, closed their place of business during the afternoon, while the Gainesville National Bank was closed from 2 o'clock. Rev. F. R. Bridges of the Methodist church preached the funeral services, and the home was filled with sorrowing friends who had come to pay their respect to the deceased.

Philathea Class, Attention.

Members of the Philathea Class of the First Methodist church are requested to meet at the church this morning at 9 o'clock, as well as all young ladies interested. This class is an auxiliary to the Sabbath school and is doing splendid work.

BURGLAR WAS OUSTED.

Entered the Home of J. A. Jones on Friday Night.

Sometime during the early part of Friday evening a burglar entered the home of J. A. Jones, and was detected by his wife, who heard the noise in time to run him from the place before he had succeeded in getting anything of value.

Mr. Jones was away at the time, and his wife, hearing the noise in the adjoining room of her home, began an investigation, running upon a big black negro who made his escape from the house and was hemmed in the stable for a short while, but managed to get out before assistance could be secured. Had she been prepared for the intruder, she could have easily shot him.

Dr. Tench Opens Dental Office.

Attention is directed to the dental card of Dr. J. D. L. Tench, which appears in this issue of The Sun. Dr. Tench was formerly engaged in the dental business in Gainesville and at the time he was forced to leave here on account of his health he enjoyed a most extensive practice. After an absence of several years in Georgia he has fully regained his health and has established his offices in the Graham building, where he will be pleased to meet his old customers and friends and taks care of the wants of the general public in the dental line.

More Than Enough Is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

It now looks as if Spain's next war history may be bound in Morocco, remarks The Wall Street Journal.

If present plans carry Chicago will be blessed within two years with a Palais de Costume over on the lake front, wherein every style of costume will be reproduced, from the one worn by Eve down to and inclusive of those of the women of today. In the opinion of President Taft the country is ready to try the experiment of subsidizing American shipping. Despite the fact that extreme economy is being urged in the Postoffice Department to overcome the annual deficit, and that increased charges are made on the public in certain lines of service to that end, it is proposed to use the profits of the ocean mail service for the payment of these subsidies. As precedent for such public aid for private enterprise the protective tariff, the river and harbor bills of the past and the reclamation service at present in operation are cited. These presentments, with the obvious lack of American ships on the high seas, constitute the President's case for ship subsidies.

Fewer deaths in the mines of the United States in the last year are shown by the statistics on accidents which will soon be given out by the Geological Survey. There were 2,450 persons killed last year. This is a falling off of more than seven hundred, as compared with 1907. About sixty-seven hundred were injured in 1908. This is about the same number as in the year preceding. The falling off in the number killed is ascribed in part to the light thrown on mine accidents by the experiment of the technologic branch of the Geographical Survey. In December, 1907, there were four disastrous explosions in which hundreds of miners were killed. The result was that Congress took the subject up and provided for an investigation into the causes of such accidents

While the West may not be wholly the enemy's country to the proponents of "ship subsidy," the antagonism to Federal assistance to the merchant marine in that section has hitherto been fatal to every project in its interest. Had the Western Republicans been solid for any form of Federal assistance to American shipping in the foreign trade, the necessity for a Presidential plea for it would long ago have ceased. All Western Republicans, to be sure, are not opposed to ship subsidy, but so many of them are that in coalition with the Democrats they have hitherto constituted an insurmountable obstacle. In the West there seems to be a general indifference to the flag under which its products are carried so long as they are carried at the lowest rates. How little the carrying trade for the United States falls short of being monopolized by foreigners is evidenced by the sorrowful fact that last year only one merchant vessel flying the Stars and Stripes passed through the Suez Canal.

GENERAL FRED GRANT.

General Fred Dent Grant's appearance in full army regalia at the head of a prohibition parade in Chicago has roused the wrath of some citizens of the Windy City, who object to the army butting into politics and interfering with the tastes and thirsts of the people. Chicago should not take General Fred D. Grant too seriously. He is U. S. Grant's son, not U. S. Grant; paternal talent sometimes breaks out into the son, but Fred D. escaped; no river is in danger of conflagration from him. He looks well in uniform and is probably as impressive as any of the funny freaks who were "generalized" by the McKinley regime—Wood, Funston, Guild, Shafter, et al., for he was made a general for his father's sake, not for anything he ever did himself. He was not a success at West Point; he came near being expelled for hazing a negro cadet; his service in the regular army was grief and not glorious; it was on a general's personal staff and not with his regiment and colors; and his most important and sagacious achievement was his marriage of a rich girl. Chicago should smooth its ruffled plumage; Gen. Fred looks fine in a street parade; he has a talent for it; a major-general on a water wagon is sufficiently novel to tickle the crowd in the street. Time was when certain saints and critics complained of General Grant's tastes to Lincoln, and accused him of drinking whiskey. The kindly and whimsical Lincoln said he wished he knew the brand of whiskey Grant drank, so that he could send some of it to his other generals. We trust Grant, Gen. Fred, knows the brand, so that when real war comes he may be able to help out in days of trouble. A general in Chicago hasn't much to do outside of decorating ball rooms and glorifying 4 o'clock teas; and when a peaceful soldier has a lot of feathers, clothes and implements of war to exhibit and air, why isn't a prohibition parade just as good as any other medium? Let us be reasonable and take Grant for granted.

Battle Abbey, the Confederate memorial project at Richmond, Va., is beginning to assume tangible form. A site has been selected and plans for the erection of the buidling are well advanced. The idea of a great museum for the preservation of Confederate records and relics was conceived by the late Charles Broadway Rouse of New York. Mr. Rouse was a wealthy merchant. He was a Confederate veteran, and in the latter years of his life was stricken with blindness. Living in darkness, he looked with his mind's eye far into the future, and outlined a plan which found general favor. Since Mr. Rouse first set forth his idea of a permanent memorial building Battle Abbey has been a theme of wide discussion. The United Confederate Veterans and their kindred organizations have given the matter much attention. It is easier, however, to form plans than to carry them to a successful issue. The South, which naturally might be expected to supply the larger part of the funds necessary to the undertaking, is not a country of millionaires. The work of raising the money has been slow. It is gratifying to know, nevertheless, that it has progressed sufficiently that a point has been reached where the actual work of construction may be begun.

One of the things that the polar controversy has accomplished is the addition of "igloe" to the popular vocabulary, though not more than half the people you meet can tell just what it means. Some think it food and others a fire.

Catarrh Cannot Be Cured

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

HON. W. A. BLOUNT.

Hon. W. A. Blount, candidate for United States Senator, was in DeFuniak the first of the week, attending court. Mr. Blount, in the course of a short interview, talked breezily with The Herald man on various topics, including his candidacy. Our personal acquaintance with the distinguished gentleman had heretofore been only such as might be picked up in a purely business way, and while we have always admired Mr. Blount, we don't realy consider that we ever met the MAN until this week. Our newspaper experience of something like twenty-five years stands us in good stead when it comes to "sizing up" a man, and we pride ourselves some on our ability (fancied or real) of being able to talk with a man for five minutes and then drawing a pretty correct idea of what he had for dinner last Friday was a week ago. Mr. Blount exactly fills our bushel measure. Not thirty-two quarts, mostly chaff and a few cobs, for "good measure," but a whole bushel, "heaped up and running over," of good, solid, broad-minded, big-hearted, American citizen. It is no disparagement of other good men in the race to say that some of them are going to wish Mr. Blount was in "galley-wack" before this thing is over.—DeFuniak Springs Herald.

The new tariff commission has had one meeting and has as yet done little more than prepare for the work which lies before it; but there is no question in the minds of the members, or in the judgment of the public, that the work may prove of tremendous importance to the business interests of the country. And from certain indications it looks as if the new board will begin at once its collection of facts, figures and other material necessary for properly transacting its business. Possibly before the autumn is over some definite results may be achieved, although it may be taken for granted that the board intends to give no "snap" opinions. It recognizes the gravity of its responsibility, and is not likely to make any decision which might afterward call for reversal.

Coughs and Colds—At this season when coughs are so prevalent, an effectual remedy, and one easily obtained, is Perry Davis' Painkiller. It is no new nostrum, vended by unknown agents, but has stood the test of over seventy years; and those who use the article, internally or externally, will connect with it grateful recollections of its worthy inventor.

ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Gardiner, Maine.—"I have been a great sufferer from organic troubles and a severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash—and was entirely cured after three months' use of them."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.

This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

UNFORTUNATE COLORED PEOPLE.

Charlie Morris and Family Lose Home and Contents.

Charlie Morris, colored, who lives near Kanapaha, lost his home and contents early Saturday as the result of a fire which he claims was of incendiary origin. The house was one of the best in that section, having been erected several years ago by one of the Northern families who resided there at that time. Morris lost everything in the house except the organ, even his dog being burned. His wife was in the city Saturday soliciting aid, and asks The Sun to thank all who kindly contributed to them. She was suffering much pain as the result of stepping on a nail during her efforts to save some of the furniture, and was almost frantic over her loss. Sheriff Ramsey kindly assisted the woman, having known the family for several years, who he says are industrious and orderly citizens of the neighborhood.

LETTER TO L. M. McCORMICK, Gainesville, Florida.

Dear Sir: Here's the one great big fact in paint:

Every job painted Devoe takes less gallons than any other paint.

If any one doubts this statement, here's the proof:

He may paint half his job Devoe, the other half whatever paint he likes. If the Devoe half does not take less gallons and cost less money for both paint and labor, no pay.

Yours truly,

AMUSEMENTS

DOUBLE BILL THIS WEEK.

Voyle & McCollum Secure Splendid Attractions for Coming Week.

Some splendid attractions are booked for the Baird Theatre the coming week, which, together with the motion pictures and illustrated songs, will furnish all the amusement that our people could wish for.

On Monday, Tuesday and Wednesday nights a double bill will be offered by Voyle & McCollum, they having secured Mr. Harry Waiman, a violinist of superior ability, and Mlle. Valenteene Mooree, a flying-trapeeze performer, and in addition to these acts several reels of pictures and illustrated songs will be added to the program.

MLLE. VALENTEENE MOOREE

In speaking of Mlle. Mooree's appearance at the Majestic Theatre in Jacksonville, The Metropolis says: "Last night was the first presentation of the regular bill for this week, and Mlle. Valenteene Mooree, in a fifteen-minute act from the London Coliseum, was the first number on the program, and her work on the flying trapeze is one of the features of this week's bill."

Messrs. Voyle & McCollum will try the double-bill the coming week as an experiment, but since the people of Gainesville have been according them a good patronage during the past two weeks, or since the opening of the theatre, they feel confident that their efforts to give them the best attractions to be secured will be appreciaed, and that the attendance each night will more than make up for the extra outlay in securing these attractions.

For Thursday and Saturday nights other attractions of a high order will be offered. On Friday night the house will be occupied by the "St. Elmo" company.

ST. ELMO TO OPEN.

Famous Novel of Evans to Be Produced at the Baird.

Augusta J. Evans' famous novel, 'St Elmo," has long been one of the most widely read books the incidents of which are laid in the South. There are few who are unaquainted with this powerful delineation of a most fascinating character, and this interest lies not alone in the South but in the Northern cities as well. A recent inquiry at half a dozen of the largest of the New York public library branches developed the fact that a copy of "St. Elmo" is rarely upon the shelves for more than a day at a time, although each library possesses from three to a dozen copies of the book. Not even the works of Dickens or Scott are more widely read, nor have those masters of English literature given to the world a more intensely human character study than that of St. Elmo Murray, whose early disillusionment by his fiance and the beloved chum of his boyhood induce a reaction from his own nobility of character and produce a man little short of a fiend in human form. His regeneration and restoration to his own better self is accomplished through the influence of the pure and unspoiled orphan, Edna Earl. It was not without misgiving that Neil Twomey approached the difficult task of condensing for dramatic use the crowded incidents of the novel, but he has succeeded in presenting a play possessing the literary quality of the novel and the added value of rapidity of action, with no expense of sacrifice of local color, or the indefinable charm of the book. The play "St. Elmo" interpreted by a notably good cast of players will be seen at the Baird Theatre on Friday, October 15th.

Had the Western Republicans been solid for any form of Federal assistance to American shipping in the foreign trade, the necessity for a Presidential plea for it would long ago have ceased. All Western Republicans, to be sure, are not opposed to ship subsidy, but so many of them are that in coalition with the Democrats they have hitherto constituted an insurmountable obstacle. In the West there seems to be a general indifference to the flag under which its products are carried so long as they are carried at the lowest rates. How little the carrying trade for the United States falls short of being monopolized by foreigners is evidenced by the sorrowful fact that last year only one merchant vessel flying the Stars and Stripes passed through the Suez Canal.

GENERAL FRED GRANT.

General Fred Dent Grant's appearance in full army regalia at the head of a prohibition parade in Chicago has 'roused the wrath of some citizens of the Windy City, who object to the army butting into politics and interfering with the tastes and thirsts of the people. Chicago should not take General Fred D. Grant too seriously. He is U. S. Grant's son, not U. S. Grant; paternal talent sometimes breaks out into the son, but Fred D. escaped; no river is in danger of conflagration from him. He looks well in uniform and is probably as impressive as any of the funny freaks who were "generalized" by the McKinley regime—Wood, Funston, Guild, Shafter, et al., for he was made a general for his father's sake, not for anything he ever did himself. He was not a success at West Point; he came near being expelled for hazing a negro cadet; his service in the regular army was grief and not glorious; it was on a general's personal staff and not with his regiment and colors; and his most important and sagacious achievement was his marriage of a rich girl. Chicago should smooth its ruffled plumage; Gen. Fred looks fine in a street parade; he has a talent for it; a major-general on a water wagon is sufficiently novel to tickle the crowd in the street. Time was when certain saints and critics complained of General Grant's tastes to Lincoln, and accused him of drinking whiskey. The kindly and whimsical Lincoln said he wished he knew the brand of whiskey Grant drank, so that he could send some of it to his other generals. We trust Grant, Gen. Fred, knows the brand, so that when real war comes he may be able to help out in days of trouble. A general in Chicago hasn't much to do outside of decorating ball rooms and glorifying 4 o'clock teas; and when a peaceful soldier has a lot of feathers, clothes and implements of war to exhibit and air, why isn't a prohibition parade just as good as any other medium? Let us be reasonable and take Grant for granted.

Battle Abbey, the Confederate memorial project at Richmond, Va., is beginning to assume tangible form. A site has been selected and plans for the erection of the buidling are well advanced. The idea of a great museum for the preservation of Confederate records and relics was conceived by the late Charles Broadway Rouse of New York. Mr. Rouse was a wealthy merchant. He was a Confederate veteran, and in the latter years of his life was stricken with blindness. Living in darkness, he looked with his mind's eye far into the future, and outlined a plan which found general favor. Since Mr. Rouse first set forth his idea of a permanent memorial building Battle Abbey has been a theme of wide discussion. The United Confederate Veterans and their kindred organizations have given the matter much attention. It is easier, however, to form plans than to carry them to a successful issue. The South, which naturally might be expected to supply the larger part of the funds necessary to the undertaking, is not a country of millionaires. The work of raising the money has been slow. It is gratifying to know, nevertheless, that it has progressed sufficiently that a point has been reached where the actual work of construction may be begun.

One of the things that the polar controversy has accomplished is the addition of "igloe" to the popular vocabulary, though not more than half the people you meet can tell just what it means. Some think it food and others a fire.

Catarrh Cannot Be Cured

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

HON. W. A. BLOUNT.

Hon. W. A. Blount, candidate for United States Senator, was in DeFuniak the first of the week, attending court. Mr. Blount, in the course of a short interview, talked breezily with The Herald man on various topics, including his candidacy. Our personal acquaintance with the distinguished gentleman had heretofore been only such as might be picked up in a purely business way, and while we have always admired Mr. Blount, we don't realy consider that we ever met the MAN until this week. Our newspaper experience of something like twenty-five years stands us in good stead when it comes to "sizing up" a man, and we pride ourselves some on our ability (fancied or real) of being able to talk with a man for five minutes and then drawing a pretty correct idea of what he had for dinner last Friday was a week ago. Mr. Blount exactly fills our bushel measure. Not thirty-two quarts, mostly chaff and a few cobs, for "good measure," but a whole bushel, "heaped up and running over," of good, solid, broad-minded, big-hearted, American citizen. It is no disparagement of other good men in the race to say that some of them are going to wish Mr. Blount was in "galley-wack" before this thing is over.—DeFuniak Springs Herald.

The new tariff commission has had one meeting and has as yet done little more than prepare for the work which lies before it; but there is no question in the minds of the members, or in the judgment of the public, that the work may prove of tremendous importance to the business interests of the country. And from certain indications it looks as if the new board will begin at once its collection of facts, figures and other material necessary for properly transacting its business. Possibly before the autumn is over some definite results may be achieved, although it may be taken for granted that the board intends to give no "snap" opinions. It recognizes the gravity of its responsibility, and is not likely to make any decision which might afterward call for reversal.

Coughs and Colds—At this season when coughs are so prevalent, an effectual remedy, and one easily obtained, is Perry Davis' Painkiller. It is no new nostrum, vended by unknown agents, but has stood the test of over seventy years; and those who use the article, internally or externally, will connect with it grateful recollections of its worthy inventor.

ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Gardiner, Maine.—"I have been a great sufferer from organic trouble and a severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash —and was entirely cured after three months' use of them."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.

This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

UNFORTUNATE COLORED PEOPLE.

Charlie Morris and Family Lose Home and Contents.

Charlie Morris, colored, who lives near Kanapaha, lost his home and contents early Saturday as the result of a fire which he claims was of incendiary origin. The house was one of the best in that section, having been erected several years ago by one of the Northern families who resided there at that time. Morris lost everything in the house except the organ, even his dog being burned. His wife was in the city Saturday soliciting aid, and asks The Sun to thank all who kindly contributed to them. She was suffering much pain as the result of stepping on a nail during her efforts to save some of the furniture, and was almost frantic over her loss. Sheriff Ramsey kindly assisted the woman, having known the family for several years, who he says are industrious and orderly citizens of the neighborhood.

Every job painted Devoe takes less gallons than any other paint.

If any one doubts this statement, here's the proof:

He may paint half his job Devoe, the other half whatever paint he likes. If the Devoe half does not take less gallons and cost less money for both paint and labor, no pay.

Yours truly,

AMUSEMENTS

DOUBLE BILL THIS WEEK.

Voyle & McCollum Secure Splendid Attractions for Coming Week.

Some splendid attractions are booked for the Baird Theatre the coming week, which, together with the motion pictures and illustrated songs, will furnish all the amusement that our people could wish for.

On Monday, Tuesday and Wednesday nights a double bill will be offered by Voyle & McCollum, they having secured Mr. Harry Waiman, a violinist of superior ability, and Mlle. Valenteene Mooree, a flying-trapeeze performer, and in addition to these acts several reels of pictures and illustrated songs will be added to the program.

MLLE. VALENTEENE MOOREE

In speaking of Mlle. Mooree's appearance at the Majestic Theatre in Jacksonville, The Metropolis says: "Last night was the first presentation of the regular bill for this week, and Mlle. Valenteene Mooree, in a fifteen-minute act from the London Coliseum, was the first number on the program, and her work on the flying trapeze is one of the features of this week's bill."

Messrs. Voyle & McCollum will try the double-bill the coming week as an experiment, but since the people of Gainesville have been according them a good patronage during the past two weeks, or since the opening of the theatre, they feel confident that their efforts to give them the best attractions to be secured will be appreciaed, and that the attendance each night will more than make up for the extra outlay in securing these attractions.

For Thursday and Saturday nights other attractions of a high order will be offered. On Friday night the house will be occupied by the "St. Elmo" company.

ST. ELMO TO OPEN.

Famous Novel of Evans to Be Produced at the Baird.

Augusta J. Evans' famous novel, "St. Elmo," has long been one of the most widely read books the incidents of which are laid in the South. There are few who are unaquainted with this powerful delineation of a most fascinating character, and this interest lies not alone in the South but in the Northern cities as well. A recent inquiry at half a dozen of the largest of the New York public library branches developed the fact that a copy of "St. Elmo" is rarely upon the shelves for more than a day at a time, although each library possesses from three to a dozen copies of the book. Not even the works of Dickens or Scott are more widely read, nor have those masters of English literature given to the world a more intensely human character study than that of St. Elmo Murray, whose early disillusionment by his fiance and the beloved chum of his boyhood induce a reaction from his own nobility of character and produce a man little short of a fiend in human form. His regeneration and restoration to his own better self is accomplished through the influence of the pure and unspoiled orphan, Edna Earl. It was not without misgiving that Neil Twomey approached the difficult task of condensing for dramatic use the crowded incidents of the novel, but he has succeeded in presenting a play possessing the literary quality of the novel and the added value of rapidity of action, with no expense of sacrifice of local color, or the indefinable charm of the book. The play "St. Elmo" interpreted by a notably good cast of players will be seen at the Baird Theatre on Friday, October 15th.

Take Off the Fat Where It Shows

Most women suffer much humiliation because of great quantities of fat, so located that, no matter how they dress, everybody sees that they are abnormal. This is the day of the slender figure, and fat women are simply not tolerated either in business or social affairs. Women may not know it, but men when they see a fat woman pass them on the street or in public places make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike fat on a woman. Where fat shows the most there is where it must be removed, and as quickly as possible. This season's dresses seem to be made for the fat woman's misery and the slender woman's delight. They expose all the charms of woman and her ugliness as well. Exercise and diet will not remove fat. This has been proved. The famous Marmola prescription which has met with such phenomenal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public for this style of treatment. These little tablets go into your system just like food. They stop the stomach and digestive apparatus from producing fat and reduce the fat upon the body at the rate of from 12 to 15 ounces a day. They are harmless and can be carried in your purse and taken even after you have indulged in a hearty meal away from home. They are sold at all drug stores at 75 cents a case, or if you prefer you may write the Marmola Company, Dept. 284, Detroit, Mich.

BOARD HOLD MEETING.

Regular Routine of Business Was Transacted on Saturday.

The Board of Control of the State of Florida held their regular meeting in this city on Saturday, when nearly all of the members were present.

Outside of a few changes being ordered in the Woman's College at Tallahassee and the paying of a number of bills, nothing was transacted.

Following the meeting they made an inspection of the University and the work being done and seemed well pleased.

FOR CITY MARSHAL.

To the Voters of the City of Gainesville: A special election having been called on Tuesday, October 19, for the election of a Marshal to succeed Ben T. Arnow, resigned, I beg to announce that I will be a candidate for that office, and ask the support of my friends. Being thoroughly experienced along the line of police work, which has been gained by a practical experience, and being now acting Marshal, if my action in this capacity meets your approval, I ask your votes to be continued in office.
Sincerely, HARRY L. OWENS.

I respectfully announce myself a candidate for City Marshal at the special election to be held on October 19th. I am in the race until the polls close on the day of the election, and respectfully solicit the votes of my fellow-citizens, promising, if elected, to perform the duties of the office without fear or favor. Give me your support, and you will never have cause to regret it.

A Business Change.

B. M. Tench has purchased the interest of Geo. W. Hyde in the shoe business which has been conducted on the west side of the square for several years under the name of Hyde & Tench. The sale was made some months ago, but only within the past few days has the firm name been changed. Mr. Hyde's extensive mining interests in the West necessitates his absence from Gainesville almost continuously, which prompted him to dispose of his interests in this firm.

Mr. Tench has been in charge of the business since its establishment, and the patronage has grown to such proportions that the store which handles "Shoes—Nothing But Shoes"—is almost a household word with the people of this section when they have under consideration the purchase of footwear.

FREE TO YOU—MY SISTER

Free to You and Every Sister Suffering from Woman's Ailments.

I am a woman.
I know woman's sufferings.
I have found the cure.

I will mail, free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—you, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or Whitish discharges, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths; also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weaknesses peculiar to our sex.

I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial; and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all old or young. To Mothers of Daughters, I will explain a simple, home treatment which speedily and effectually cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always results from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten day's treatment, and also the book. Write today, as you may not see this offer again. Address

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

S. Bodiford & Co., Special Agents

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once after the croupy cough has appeared it will prevent the attack. Contains no poison. Sold by all druggists.

And the Parson Passed On.

"And what are you here for, my friend?" asked the visiting parson of an inmate of a reformatory.

"'Cause I can't get out, thank you," replied the victim.—Ladies' Home Journal.

Your cough annoys you. Keep on hacking and tearing the delicate membranes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by all druggists.

The Honeymoon.

Mack—When were you married? Dyer—Just about six check books ago.—Puck.

CAPUDINE for "THAT HEADACHE."

Out last night? Headache and nervous this morning? Hicks' Capudine just the thing to fit you for business Clear's the head—braces the nerves Try it. At drug stores.

Italy's Rest Days.

Under a law which went into effect Feb. 8, 1908, all industrial and commercial concerns throughout Italy must grant their employees a weekly rest of not less than twenty-four consecutive hours. It does not apply to public utilities, transportation lines or places of amusement. The general sense of the law is that Sunday shall be the rest day, but it is provided that freedom from work may be given on a day other than Sunday in the case of restaurants, photograph galleries, pharmacists, etc.

A Banquet

Spread before you would do you no good if you couldn't eat. What good can food do a child when as soon as it enters it's stomach it is eaten by worms. That's the reason your baby is ailing, cross, pasty-faced and thin. Give it White's Cream Vermifuge. It will expel the worms and act as a tonic for the child. Sold by W. M. Johnson.

Who Pays For Your Printing?

Poor printing is a detriment to any buisness, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.
